## **My Word**

First of all, I would like to share with all my esteemed readers the moment of inspiration which led to the creation of this work.

I was inclined to fortune telling, right from my childhood. Whenever I met a fortune teller and saw his predictions coming true, it triggered a passion in me to enter this amazing world.

I was just 15 when the turning point probably came. It was around 12 noon when a postman delivered a few letters to my father. Every letter was addressed to my father. To my fascination I observed that the handwriting on every letter appeared different. This difference deeply intrigued me and from thereon began a journey into the mysterious world of letters and signatures to fathom the intricacies which lay beneath it.

My research began. I wanted to study the signatures and handwriting with a view to peep into psyche of the person who wrote it, his attitudes, his beliefs, his likes and dislikes all with a view to gaze at his future with an intention to benefit one and all, to become a friend, a philosopher , a guide to every human soul. From there till now, the research seems endless. Thus whatever I have probed in the two and a half decades of my research is offered to you in this book.

My family has contributed immensely in my success. My elder brother Shri Desh Deepak Mishra, my sister Upma, Anupama Mishra, grandfather Shri. Hari Prasad Panday and uncle Shri Ram Prakash Mishra have stood with me through thick and thin.

Before I commence, I offer my heart-felt reverences to my elder brother SHRI ASHOK DATTA and elder sister SHRIMATI MEENA DATTA. As our scriptures teach us that victory over Lanka was possible only because of lord Hanumana's devotion to Lord Rama, my success is because they stood as strong supporting pillars in every moment of creation of this magnum opus.

I would like to thank all my friends who have supported me directly or indirectly towards the creation of this book. I would also like to mention SHRI KAMLESH MISHRA of Varanasi, whose valuable inputs helped me in carrying out this research.

And most of all, 'Mr. RAJEEV AGARWAL' of '**BHAGWATI POCKET BOOKS**', who finally sculpted my dreams into reality and here it is before you.

And last but not the least, this work in its present form has been possible due to the inspiring efforts of my better half, SHRIMATI MUSKAN MISHRA and my dear daughters, my bundles of joy, RIMJHIM and PIA(ANGEL), who stood by me with whole hearted support to enable me to accomplish this stupendous task.

I request you my dear reader to please provide me a feed back on the contents of this book so that I can maintain my research up to your standards! You can do this by either contacting me or writing to me. I will be highly obliged by this gesture.

### COLOURS OF INK TELL YOUR DESTINY

---

Have you ever given a thought to the color of ink you use and that it can reveal an important aspect of your life which you may not be aware of!

Every individual is unique and has his own likes and dislikes which make him select a color of ink most suitable to him. At this point one wonders what is the factor responsible for this color choice which makes a person use a particular color? Therefore, dear readers! hold your breaths as we unwind the maze of this fascinating world through this masterpiece. Enter the dragon, not a movie but the world of colors which informs you how the color of ink throws light on your personality, your future, your career, the right direction for your life, the business which can give you the optimum success. To understand this find out which of the following five categories you belong to. So now your favorite color of ink unfolds those hidden secrets of your life: There are five categories. (1) Users of **red** ink. (2) Users of **green ink**. (3) Users of **black ink**. (4) Users of **blue** ink. (5) Others, who don't use any particular colored ink.

#### **1) Users of Red Ink.**

'Color Red is holy for some & dangerous to others'. It is indeed a color of passion, color of romance, red roses, red wine, red hearts ..... So you must have guessed by now: Yes, red color users are essentially romantic:

As the color itself is bright, so are such people, they want to be bright and always long for fame in the society. They are the ones who want their presence felt everywhere. They get their work done by their powers which is a characteristic of its kind. They enter occupations which are unique and do not follow any familial lineage. True to their color they give their family name a brighter shine. They are religious, artistic and 'love to rule' types.

Life is not always a bed of roses! They do undergo ups and downs in their career. It would be in the form of, either losing the jobs, or unnecessary disputes or allegations or some kind of legal disputes (litigations). But they do not lag behind and march on to make a place under the sun. They have Greek God personality which could lead to fatal attractions. Ancestral property is not what their eyes are upon. If they generously lend their money, they are sure it would never come back or if they vouch for someone they are trapped. But these people are straight toward and find happiness in a family set up. They enjoy luxurious houses and lavish cars. They are born leaders. They face some hurdles in education and child bearing. Fortunes do smile but smile late for them. In the old age there is good support from children. They lead better lives than their families and kith & kin.

As quality of romance is attached to them so are these people lovers of good food and of course love to sport good clothes. They are extremely polished in their behavior with discreet use of etiquette and social norms. But they are warned against impulsive decision making. There are possibilities of ailments of the bones, stomach operation and problems due to rash driving, accidents etc. They are even prone to heart disease. On the family front, love life with wife is often turbulent. There could be difference of opinions, an illness or an affair which could lead to divorce.(of course there could also be exceptions). Legal disputes/partnerships are not always fruitful. There is some luck associated with traveling abroad or even in your own country. Fortunes rise at age 26 to 28 and bring along winds of change in life. These people are rebellious and stubborn but there is no looking back at the onset of age 33. They suddenly dig gold in life. Of course they live a better life as compared to their parents. Thorough family men, they earn stupendously and spend even at a faster rate. Normally 36-56 is seen as the golden period of life. At 42 some health problems occur. Yes, these people are warned against wine, women and rash driving and last but not the least, borrowing money. At age 50-60 some health problems resurface.

Childhood is full of struggle, adulthood is better and old age is comfortable and peaceful. They leave this mortal world after fulfilling all their responsibilities of life. They succeed away from their birth place in careers related to Consultancy, Import/Export, Arms & Ammunition or politics.

## **2) The Green ink users:**

Green is not necessarily the color of jealousy. So if you are the user of green ink consider yourself immensely lucky. They are very fortunate and success comes to them easily and naturally. They may have to face loss of reputation at age 22 to 24. They usually harm themselves with their stubbornness and impractical principals and hardly listen to anybody and have a tall ego. They see some good changes 3 to 4 times in their lives and slowly but steadily reach the pinnacles of success. They face tensions from the spouse's side. But if they are expecting a pot of gold from their parent's 'will', it is next to impossible or they have to strive very hard for it. There is no support from siblings and at least one of the siblings remains a constant source of anxiety for them. There are plenty of hurdles to jump over. But when it comes to work they are honest to the core and work bound. Initially they work for others and then start their own business. They are better placed in life than their siblings. They enjoy luxurious houses and lavish cars and many other riches in life. There are chances getting a sudden gift in the form of a prime piece of land or a chance of purchase of a prime property at dirt cheap price. Education is good and there is success in Administrative, Technical and Social Welfare fields. They amass abundant wealth and can easily impress people with their 'gift of gab'. They are religious with interests in the occult and also know a bit of TANTRA & MANTRA. People trust them. They escape unscathed from the wrath of society even if they do some wrong. Children would give them some worries. They begin to earn at a younger age and see a lot of changes by the time they reach age 25 to 34 and that is when the major transformation takes place in life which finally leads to unprecedented success. They are particularly inclined towards culture and literature. Helping others is more important to them than anything else, even at the cost of personal loss. They don't like artificial behavior. Though the family is blessed with children but there is no happiness from them. 35-42 is the period when they go through many ups & downs in life. Age 43-52 is the best period in life. There is no particular interest in fashionable dressing but wining and dining is definitely their forte. Heart disease, bones, stomach ailments, skin are expected. Marriage brings in good changes in life. 52-55 is again faced with ups and downs. Partnership ventures are not for them. Overseas business or travel related to overseas is not beneficial. Education, Banking and Administrative sectors are good fields for a successful career. Normal gains from father. There is good money in work related to Government.

Childhood and Adulthood passes is comfortable but Old age is accompanied by diseases. End is sudden. They will be better off if they stay close to their birthplace. However, life-span is over 70 and they are bereaved by the death of their spouse. Business concerning Real Estate also is beneficial. They are advised to wear Emerald and Ruby for good luck.

### **3) Users of Black ink :**

Black is the color which absorbs every color, which nullifies the effects of evil eyes and forms a protective talisman. So users of black ink like to show off. They are Pessimists suffering because of their own stubbornness and impractical approach, though there may be exceptions. Success comes to them normally at age 28 years. They have investigative brains and do not easily trust others. Loners, Writers, Scientists and Researchers often fall in this category. They do not have many friends. Success is only after some failure. Their work is often looked at with a suspicion. They succeed in technical ventures and secret missions. They prefer to stay away from family, friends and relatives to be able to work in solitude. They do not expect help or cooperation from others. They suffer from a complex and are often found to take a long time in making a decision. Success comes suddenly in life. They enjoy good wealth and palatial houses with all the luxuries. They face one or two hurdles in education and child bearing. Though their children bring them a good name yet they are not on good terms with them. They sometimes suffer financial losses due to their masked behavior. Despite being in highly responsible position in society, they are generally looked upon with suspicion. However honestly they work, people always have wrong impressions about them. They are fond of good food and fashionable clothes. They may face accidents, imprisonment, fear of drowning, surgical operations, Stomach and Eye ailments. During middle age they become lethargic and hence are deprived of success. Spouse dies much before them. They prefer solitude and never disclose their plans and are miser. Marriage brings in a good change in life. Spouse also earns and adds to their fortunes. Legal matters, partnerships, speculation, commission agency, brokering and technical work are beneficial to them. The age from 18 to 27 is good for education, friendship and work. Life becomes table before 33. There are chances of foreign travel at the cost of others. They are not very religious and believe more in 'karma' than fate. Despite devoting more time to wrongdoings, they suddenly achieve some success at age 34 to 37. For them, the period between 42 to 56 years of age is the golden period of life. There are chances of being penalised by the Government for some misdeeds. Sudden financial gains through rewards or elevation in status are possible. Life is difficult and often laden with some kind of risk & danger.

Life for them is an adjustment and they are generally unhappy. They are solitary creatures who prefer to remain away from family & relatives. Suspicion and nagging relationships remain a source of tension during age 57 to 67 but old age is comfortable. Stagnating at a place is not good for them. If they are in business, they should look for some new overseas business, research and industrial ventures. Partnerships will be very good for them. Disappointments and failures are common in their lives. Happy moments in life are far and few. Success comes to them after real hard work. SHANI YANTRA or BLUEYANTRA SAPHIRE or CORAL OR MANGAL will be beneficial.

#### 4) Users of Blue ink:

They are patriotic souls always sincere to their duty to their nation. These duty bound citizen are law abiding, honest and conscientious towards their work which benefits them too. 'BHAGYA' and 'KARMA' play equal roles here. They do great service to the society. Their capabilities give them an important place and a great status in society. They are superstitious, home & family lovers, always ready to help others. Between 24-28 years of age, they are on their own. They love their family which is reciprocated. They buy luxurious houses and lavish cars with most of the riches at an early age. They move ahead with the help of others and are utterly optimistic. They don't have long hours of waiting for the fruits of success. They are simpletons and often not very ambitious which is the reason for their moderate success. They don't like to show off. They are friendly & extroverts. If they take up journalism, Education, Real Estate dealings, there is good amount of success. After 32 there is a good change in life. Up to 40 there is full success. There might be a hurdle in education or childbearing. They are satisfied with their work. The family remains together till the end unless there is some specific reason for a disturbed life with wife. They are not very fashion conscious and have normal eating habits. A surgery and/or Blood, Eyes, Throat, bones and liver problem are expected. 5-7 year after marriage there is a good change. Court cases, legal disputes and loans are not part of their life. Success in partnership deals comes to them only after some initial difficulties. Even the benefits from Ancestral property do not come without litigation.

They succeed in life with the help of others. Carrying on a legacy or working under the directions of others will be more beneficial. At 50-52, there are some health problems. Life at 55-65 is very good. A foreign travel from business point of view will prove to be fruitful. Gains from father and the government will be normal. They live a life at par with their parents. They have satisfactory sources of income and look after their family. A sea voyage will be extremely lucky. Fortunes rise with age and they are satisfied with their work.

Life during childhood is o.k., during youth they work hard and stand on their feet, while during old age life is comfortable. End comes due to some disease. Love thy neighbor is their motto in life. They follow social norms. Life span is expected to be over 80 but untimely accidents cannot be ruled out. Money comes in various ways. They are extremely cautious in their spending. So as they are parsimonious, their life partners could be just the opposite, which maintains the balance. SURYA YANTRA and/or Ruby is good, diamond and/or 'SHUKRA YANTRA' can also benefit them.

### **USERS OF ANY OTHER COLOUR OF INK.**

Those who use whatever color of ink that comes their way are happy go lucky. They are over-ambitious 'jacks of all trades' who love great dream projects. They are dilettante. They are like a rolling stone that gathers no moss. They flit from one work to another. They preach one thing and practice another. They hardly fulfill their promises. It is very difficult to extract work from such people. They know how to mesmerize people with their talks and get their work done. Despite of not having any major funds with them, they make a big show of it there by making a place for themselves. They reveal their plans before hand which leads to hurdles in their way. Such people are influenced by opinions of others which is why they stray from their basic aim. They work on what the others say. Therefore they are labeled as fickle minded unreliable. They have to put in lots of efforts for any work. They are successful only after a lot of struggle. They benefit more when working in a team, independent decision making is not their forte. They make money early in life and love to enjoy at others' expenses. They love flattery. Life at 27-33, brings about a change in life.

Profits from work involving leadership/contracts/commission and brokerage etc. are indicated.

They can expect to earn from art, literature, Real Estate, astrology, magic or any other art. They are less attached to father's wealth and are very independent in thinking and prefer to lead secluded solitary lives. They have normal relationship with their family and kith & kin and lead normal lives. They face difficulties in education. Children are good. Their love for food and attire is of compromising sort. They may face problems due to Rash driving, drowning, stomach and heart ailments, respiratory diseases etc. They may have extra-marital affair which mess up their lives. They enjoy conjugal bliss even while away from the spouse. Such people are often figured as controversial. Court cases, disputes and joint ventures bring them gains. After 42 years they earn wealth and fame in the society. Opportunities of overseas travel are indicated. Though there are gains from the government, the life at age 52 to 56 involves legal, familial and governmental wrath. They hoard 'un-accounted' wealth which they are not able to enjoy due to cheating by people. They have a better old age compared to youth. Such people should be cautious while dealing with those having contrary opinions. It is better not to follow them blindly. Life expectancy is more than 65 years. They are advised to wear a pearl or 'LASUNIA', it will be beneficial to them. Life is full of ups and downs.

## CHAPTER 2

### **YOUR PEN TELLS YOUR FUTURE.**

---

You may not believe this but it is true. Your pen tells you not only your nature but also your future to help you to decide on your career choice, your temperament and many other hidden aspects of your life. Researches have revealed that frequent use of a particular type of pen indicates similar future prospects of such people. This chapter thus informs you about your personality and future so let us unfold the hidden qualities of your pen.

#### **There are five types of pens.**

- 1) Pen with Nib.
- 2) Ball pen without cap
- 3) Non-use of any special kind of pen.
- 4) People who collect pens.
- 5) Those who lose their pens or who change pens frequently.

#### **(1) Pen with Nib.**

People who use a pen with a nib are meticulous, social and sincere towards their work. They achieve success through hard work and march ahead in life without the support of others. They are disciplinarians and due to this attitude they often have to suffer losses.

They are advised to stay away from risky ventures and standing as guarantors for others, it may not prove to be beneficial.

They are also cautioned against Gambling/Lottery/speculation etc. Very few persons of this type get sudden success in society. They know how to make good use of time. They prefer independent business but there not much success. They don't gain much from ancestral property. They tend to remain away from their family. They don't get much cooperation from siblings and lose at least one of them due to a health problem. They get jobs which ensure perks in the form of free housing and transport. They face some hurdles in education. They could also expect parenting difficulties. Their children are not under their control and will always be source of anxiety. However, they are all food lovers and love to wear good clothes. There are physical ailments especially of the heart, bones, stomach & eyes. Possibilities of a surgery are also there. They become independent at 20-25 and being far sighted, they secure their old age with wise investments. At age of 32 -35, there are good changes in life. There are some ups and downs around 36-38 followed by health and other domestic problems. But 39-56 is an excellent period. Childhood is normal. In youth they have to go ahead on their own efforts. At times they adopt wrong ways for selfish motives and face loss of reputation in the society. After one or two changes, they taste success with some effort. They prefer to work under the supervision and control of others. However, in their case, individual efforts prove to be beneficial. They initially take up jobs for others and subsequently start their own ventures. But their kindness and routine of helping other gets them into some troubles which also lead to problems in family life. Generally, it is seen that they become independent by the time they reach age 26-30. They work independently without any expectations from ancestral wealth and yet are successful. They make a home, a car on their own. But incidents of rash driving may lead to accidents or sudden losses. They get little benefits from children. Their children look after them in their old age.

### **(3) Non-use of any special kind of pen.**

Those who do not use any particular type of pen but use anything that is available at the moment, are highly ambitious intelligent aces in their own fields. They are hasty and pose as if they are well aware of their duties, which actually they are not.

Such people are very stubborn. They start earning at age 26. They get sudden success in life. They are highly optimistic. For them, decisions taken by others are beneficial compared to their own decisions. They have normal gains from ancestral wealth and earn enough with their own efforts to have a luxurious house and lavish cars etc. They are benevolent towards their siblings though it is not reciprocal. There are some problems in education and child bearing. They are fashionable people who like to wine and dine too. They are popular in the society and have leadership qualities. They face health problems related to Cancer, blood, respiration, skin and joints, etc. They also undergo some surgery. Life between 27 and 35 brings in some beneficial changes in life, There are some ups and downs between 36 to 38 with tension in the family. 40-51 brings in lots of stress but riches and reputation remain intact. They have to face false allegations, litigations and legal disputes in life. At 55-58, there is some trouble from the Govt. Such people stay away from their birth place. They succeed in litigations and joint ventures after initial hurdles.

They have chances to travel abroad. No help whatever is expected from the father. One makes life on one's own efforts. There are chances of sudden monetary profits and at the same time losses but income is not affected. While young, they survive lot of ups and downs. Old age is comfortable with life span of about 70 years.

#### **(4) Those who like to collect pens.**

Such people are often seen to be avid pen lovers. They boast of a variety of brands of different types of pens in their collection and proudly show off too. They may or may not use but they do collect pens. Such people are clever, romantic souls, constantly fishing for compliments. They maintain an air of secrecy about their work and hardly respect the advice of others. They have special attraction towards members of the opposite sex and often end up with losses while helping them or trying to mingle with them. Though they are misers and hardly spend on others yet they behave in a contrary manner for their own motives. They are not very social and remain within their own circle and get along with a select few only. They are not able to exploit the numerous opportunities in life and hence do not get what they deserve. They are fashion conscious and love good food and good clothes. They do not get along well their father still they get full co-operation and money from their parents. They know how to make good use of others for their own means. They are somewhat lethargic and like to do what and when they want. They are able to afford cars and own house without much hassles. Their life becomes stable between 22-28 years. They do not disclose their income to others. They face some hurdles or delays in education and child bearing. They have more affection for daughters, and sons will be more affectionate towards mothers.

They are likely to face danger from rash driving and health problems related to skin, stomach & bones. There is also danger from drowning, secret enemies and members of the opposite sex. Their extra marital affairs lead to clashes and tensions in the family. There is remarkable change in life after marriage.

Such people are seen happy in family life only after 36 years of age. There is success in litigations and joint ventures in old age. Travelling for work could be beneficial, chances of overseas travel are also there. Business relating to I.T., fashion, beauty, law and consultancy, literature and journalism gives them good gains. Such people cannot grow beyond their parents' status in life. They accumulate good money. Period between 50-54 years in life is very busy and stressful. Period between 55-65 years is good. In contrast to youth which is joyful, old age has some worries in store for them. Good success in life after 36 years. Life span is about 70 years.

#### **(5) Pens often missing or frequent change of Pens**

There are some people who cannot preserve a pen for a longer period of time, they very frequently, either misplace, lose or forget to take back their pens, however expensive they may. They sometimes throw away their pens after using them just for an autograph. Such people are extra ordinarily brilliant and bring a good name to their family. They are highly ambitious & multifaceted personalities, sentimental yet happy go lucky in life. They work with utmost devotion to fulfill their ambitions and make everyone feel proud of them. Their work is not recognized by their family and society initially but later on they are commended for the same. Noted philosophers, outstanding sportsmen, impressive orators and leaders of the society whom people idolize, fall under this category. At times they suffer heavy losses due to their stubbornness.

They are well placed financially and are able to earn fame and afford lavish cars and luxurious dwellings before 36 years of age. Fame and fortunes continue to bless them till age of 36. They make progress in life with their own efforts without any help. They are generally very helpful and often give charities too. Success comes after many ups & downs. Life at 18 to 26 years of age brings some ups and downs. They like to live life in their own style and carve a niche for themselves. ## CHAPTER- 4

### **SIGNATURES TELL YOUR FUTURE**

---

Perhaps you may not believe the fact that apart from getting the details about your personality, your signatures can also be used to make predictions about your past, present and future and you can use this information about your nature, profession and fortunes and bring desired changes in your life just by making suggested changes in your signatures. .

Signature is as important to fortune telling, as human brain is to human body. In this book, an attempt has been made to classify different types of possible signatures into **eighteen** broad categories to summarize the whole science of '**fortune telling**' through signatures.

To know, how to identify the category in which your signature falls, you have to check and compare in the same order in which the signature categories appear in this book. Some signatures may appear to fall in more than one category thus causing confusion. For example:-if the first letter of your signature is large in size and you also underscore it and add a dot or two, you need not see all the signatures, The identifying mark which appears first in your signature in the category list determines your category and the result given in that category is the prediction related to your signature. The category in case of the example given above is 1. You have to study this chapter very carefully. For example: the first letter of signature shown below is large and the author draws a line and also puts a full stop.

1) The first letter is large in size 2) There is a line below the signature.  
3) There is a dot or a full stop. Now you can enjoy the fruits of two and a half decade long research conducted by Dr. RAJ DEEPAK MISHRA on the handwriting and signatures of lakhs of people from all over the globe. Its astonishing results will be of great help in choosing your most apt career and working to succeeding in it. You will get the key to a remarkable success, just by studying the signature of those who are in high positions in their fields and by imitating their signatures. You can also achieve same levels of success through your efforts. You will also come to know whether your current business/profession matches you signature/handwriting or not. In normal course, you would have struggled to find the right profession and succeed in it but now you can just pick up the right one and work at it and be happy with the success. In this chapter we are giving very important information on this subject, which will be immensely helpful to you.

The research work conducted by Dr. RAJDEEPAK MISHRA shows that handwriting and signature can help in choosing your career/profession.

Given below are certain samples of handwriting and signatures classified into several groups connecting them to particular professions. In case your signature or handwriting matches with the sample given in a particular group and you are already in a profession given in that group, you will never fail. Reverse is true if it is vice versa.

If it does not match, you need not worry. You just have to get ready and get going. You only have to make the required changes (if you wish to remain in the same profession) as given in that group. Alternatively you may choose the profession of your liking and try to imitate signatures/handwriting given in the group to which the profession of your choice belongs. So start immediately and arrange necessary change in signature and handwriting and be successful in life and be happy. In case you are unable to change your signature or handwriting, you will have to change your business or work which matches with your writing and be happy.

## CHAPTER- 6

### **WHO WILL BE LUCKY FOR YOU.**

---

In this chapter we are giving you very important information which will help you to know whether your signature matches with that of your friend, partner or relative and whether it will help you in keeping friendship and profit in business and thus reduce your chances of failure & difficulties. Like in medical science, the life of an accident victim can be saved by giving him the blood of a person whose blood group matches with that of the victim. Similarly signature/handwriting of a particular person proves to be conducive and helpful to a person with similar signature/handwriting.

#### **Round signature**

The person whose signature is round shaped or first letter of signature is big and round in shape, is like the person having 'O' blood group, which is generally known as universal donor and can match with all. Such persons are honest, gentleman and do not deceive anybody. The two persons whose signature or first letter of handwriting is big and round, are good friends or good partners if they are in business. They are always alert in their business but fall pray to situations.

Here in after, 18 different modes of signature are given. One chart has been prepared and you can find out which type of person is beneficial, very good and good or trouble shooter for you just by looking for your type of mode of signature.

**For example:-** If your signature tallies with the signature of person given at S.NO.1 then the person whose signature appears at Sr.nos. 8, 1, 3 or 13, is very good for you (80% and above). You can marry them or keep friendship or partnership in business or keep him/her on some important post in your business. So also persons with signatures at Sr.Nos.2,10,14,18 will be beneficial to a normal degree(good) i.e. upto (70%-80%) and persons with signatures at Sr.nos. 5,9,11,15 will be beneficial to a lesser degree i.e. upto (60%), whereas persons with signatures at S.No.7,12,16,17 will be troubleshooters for you.
